

EAGLE

SECOND MEETING

EXPERT ACADEMY IN GYNECOLOGICAL LASER ENDOSCOPY

MILANO
NOVEMBER 17th/18th – 2023

SAVE THE DATE

A new approach to meet and share **knowledge** and **experience** in the field of gynecology. The second edition of **Expert Academy in Gynecological Laser Endoscopy** was born from this idea, from the opportunity to make and gain awareness by doing **training**.

A **Faculty** of international level for an innovative scientific and surgical technical meeting.

Live with procedures performed with the latest innovative technologies in gynecology and video session to comment step by step on operative procedures.

EagleLab a space in which to gain hands-on experience with simulators.

All this in a dense and streamlined two days.

TOPIC

- Energies in gynecology
- Lasers in gynecology: why?
- Lasers in laparoscopic surgery: from diagnostics to DIE.
- Lasers in laparoscopic surgery: treatment of endometrioma.
- Lasers in hysteroscopic surgery: polypectomy, myomectomy, metroplasty.
- Lasers in vaginal surgery: vaginal rejuvenation.
- Laser in cervical surgery: conization.
- Laser in vulvar surgery: treatment of preneoplastic lesions.
- Laser in urogynecology.
- Lasers in obstetrics: fetofetal transfusion syndrome in twins.
- The right reimbursement in DH and DS procedures.
